

## Long-duration energy storage: charting pathways for more renewables in Europe?

**High-Level Round-Table**  
**23 October 2023 – 15.00 – 16.45 CEST**

Industry representatives and public officials will convene to discuss how to shape an EU energy system favourable for long-duration energy storage.

We will delve into regulatory frameworks, impactful business models, and best practices in countries like Germany, France, Spain, Italy, and Great Britain, looking at the findings of two studies on LDES developed by Aurora Energy Research earlier this year.

The High-Level Round-Table is hosted by Breakthrough Energy Europe in partnership with SPRIN-D.

### Agenda

14:45 – 15.00	<b>Welcome Coffee</b>
15:00 – 15.15	<b>Opening Remarks and The Basics &amp; The Gaps on LDES</b> <b>Doriana Forleo</b> , Head of Communications, Energy Storage Coalition
15:15 – 15.35	<b>Introductory Presentation of the 2023 LDES Studies</b> <b>Simon Bretschneider</b> - Research and Business Analyst, Federal Agency for Disruptive Innovation SPRIN-D <b>Alejandro Zerain</b> – Project Leader, Aurora Energy Research
15:35 – 16.35	<b>Discussion</b> Moderator: <b>Vasiliki Klonari</b> – Head of Energy System Integration, WindEurope <ul style="list-style-type: none"> <li>• <b>Balázs Józsa</b> – Policy Officer, DG Energy, European Commission</li> <li>• <b>Ben Potter</b> – SVP Strategy, Corporate Development &amp; Investor Relations, Energy Dome</li> <li>• <b>Christian Barba Rodulfo</b> – International Business Development and Storage Director, EDP Renewables</li> <li>• <b>Ramya Swaminathan</b> – CEO, Malta Inc</li> <li>• <b>Stephan Herrmann</b> – CEO, Reverion</li> </ul>
16.35 - 16.45	<b>Conclusions</b> <b>Philipp Offenberg</b> – Senior Manager Europe, Breakthrough Energy
16.45 – 17.30	<b>Networking</b>
